

Intermediate Project Engineer (full-time permanent position)

Location: Listowel, Ontario

GM BluePlan Engineering is a dynamic consulting firm providing engineering design services to support a variety of Municipal and Private Sector projects within Southern Ontario. Our Listowel office primarily focuses on land development ventures (including industrial, residential, institutional, and commercial subdivisions and site plans), linear municipal infrastructure works (including sewer and watermain extension and replacement and road reconstruction), and infrastructure planning tasks (including master plans and Environmental Assessments). Our broader team also provides Asset Management and engineering services.

We are looking for an Intermediate Engineer to complement our team in the area of linear and vertical municipal infrastructure; someone who is hard-working, dedicated, talented, energetic, and creative, to join our team and together contribute to the continued growth and success of the Company. If you have direct experience in our fields of service, and/or complimentary skills that could strengthen our group, we welcome you to apply.

RESPONSIBILITIES:

- Manage the day to day project work on specific assignments;
- Provide design leadership on projects, including acting as the project's stamping engineer;
- Ensure project schedules, deadlines and budgets are well communicated and executed;
- Preparation of proposals, and other business development initiatives;
- Review and issuance of construction cost estimates and detailed construction specifications;
- Contract tendering and administration services and construction inspection;
- Develop strong relationships with our existing client base and identify potential business initiatives; and,
- Other duties as assigned.

QUALIFICATIONS:

- Registered Professional Engineer (Ontario / PEO);
- Graduation from a University program in Engineering (preferably Civil) with minimum 5 years of experience in a similar field;
- Experience and aptitude to work with Microsoft Office;
- Demonstrated technical competencies and skills in linear municipal infrastructure engineering; familiar with municipal, provincial and federal policies and standards;
- Possess strong organizational, oral, written communication, and problem solving skills;
- Teamwork skills and a willingness to learn; and,
- Possess a valid driver's licence and have access to a reliable vehicle.

WE ARE COMMITTED TO PROVIDING:

- A dynamic work environment which encourages teamwork, initiative and creativity;
- Career development and education opportunities;
- A competitive compensation package commensurate with experience, including a benefit package and RRSP program;
- Extra-curricular social activities (hockey, golf and many more social events).

JOIN OUR TEAM!

Candidates who are interested in joining our dynamic team are invited to forward their resume via email to careers@gmblueplan.ca, indicating the **position** in the subject line of their email.

*We thank all applicants; however only those selected for an interview will be contacted.
GM BluePlan Engineering will accommodate candidates under the AODA legislation in all aspects of the hiring process. Please notify us if accommodation is required.*
